Buy from DNC Electronics and save 30-80% on a refurbished unit. With the main components being reused and no product development costs involved big savings are made and are passed to the customer.

SAVE MONEY

3

## Quality

All refurbished units from DNC Electronics go through an extensive cleaning process. All worn or damaged components are replaced and the unit is tested to meet standard to ensure it is of a like new quality. For peace of mind, **DNC Electronics offer a range of warranties with all their refurbished units.**

4

## More environmentally friendly

Refurbished = Recycling. Saving energy and conserving raw materials.

5

## Avoid high replacement costs and the unknown

Purchasing new can cost and the quality may not be as good . You will may also be unaware of any potential issues especially if that product has only just been introduced to the market.

THE GREAT UNKNOWN
