

Newsletter

April 2017

Welcome to the very first DNC Newsletter. Bringing you both Company and Product Updates we hope you enjoy reading this First Edition!

Why choose us?

With over 20 years of experience we are now one of the leading Fanuc specialists for the machine tool industry worldwide.

Holding a huge inventory of Fanuc Motors and Drives, as well as Fanuc Control and System boards (from 1980 onwards), we offer a 24 hour FANUC repair and testing service as standard. For any drives we don't have in stock we offer a same day repair service.

All exchange / repair warranties are 180 days with 12 months warranty on new power supply units and new Fanuc motors.

With many other GEFanuc parts in stock if you have an urgent Fanuc requirement [speak with us now](#) to see how we can help.

Order your Fanuc Batteries and Fuses Online

Did you know you can order Fanuc batteries and fuses online now? Please visit our [online shop](#).

DNC has in excess of 20 years experience of shipping to their customers worldwide via various shipping methods.

If you encounter a large number of damages to goods in transit, read our article: [How to ship CNC parts: 7 Steps](#) which looks at the steps you can take in order to minimise any shipping damage occurring to your goods.

More useful articles and technical guides will be posted on our [website](#) soon!

Need to Contact Us?

If your question is of a technical nature and urgent you may wish to contact us directly on Tel: +44 (0) 1793 615356. Otherwise you can email us at sales@dnc-electronics.com or fill in the contact form on our website via the [contact us page](#).

Or if you prefer we can now be contacted via Live Chat during opening hours which are 9:00am–

5pm Monday to Friday.
